Log on to Campusweb.

On the upper-left hand corner of the Campusweb page, click on the Course Planning tab:

When the Course Planning tab loads, click on the link marked Course Search:

When the Course Search page loads, you can search for courses based on a number of criteria – course code, title, meeting time, faculty, building, and so forth. Generally, the quickest way to find the textbooks for a specific course is to use the course code. (In this example, we will search for the textbooks for History 111 Ancient / Medieval History, using its course code of “HIST 111”.)
The search will return with results. To view the textbooks for the course, click on the plus sign below the “Textbooks” heading:
